

RXCENTRALFILL7200

END-TO-END CENTRAL FILL PHARMACY

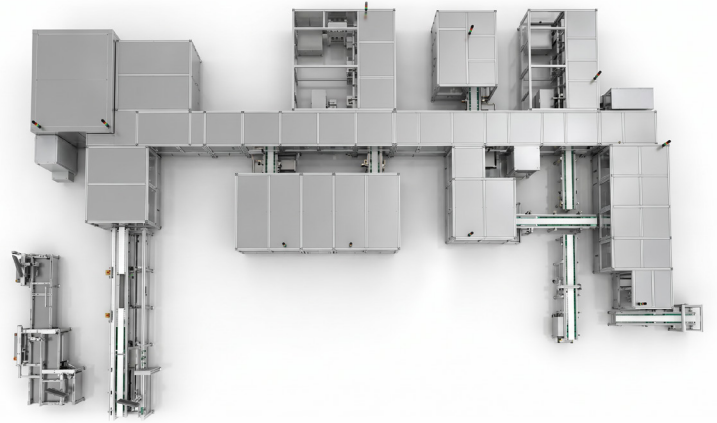

The ATS combination of digital virtual simulation, open software, SuperTrak™ CONVEYANCE, and high-speed inspection enables:

- Streamline operations with consistent results and ~50% faster throughput
- Integrate existing databases
- Optimize inventory with data-driven insights
- Handle capacity expansion with ease
- Achieve lower cost per script

ATS applies proven technology to reduce time to market and deliver the lowest cost per script. By minimizing manual intervention and streamlining processes, we reduce reliance on large operator teams and drive down:

- Overhead
- Processing time
- Operating expenses
- Obsolescence risk

**SMARTER, FASTER, LEANER FULFILLMENT SOLUTION - BUILT
ON PROVEN PLATFORMS, TAILORED TO YOUR WORKFLOWS**

RXCENTRALFILL7200

High-capacity: 51 – 120 packages ready to mail per minute / 3060 - 7200 units per hour

FEATURES AND BENEFITS

ATS SmartVision™

- 100% pill counting and 100% bottle inspection
- Controls multiple cameras to perform numerous independent inspection sequences

Inventory Management

- Real-time inventory and replenishment with 100% container-level track-and-trace
- Configurable rules for restocking, prioritization, and visibility from warehouse to container

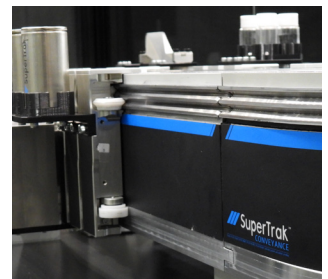

SuperTrak™ CONVEYANCE and SuperTrak MICRO™

- Smart linear motion delivers up to 50% smaller footprints than traditional conveyors
- Modular design fits existing layouts and scales easily as capacity grows
- Up to 40% fewer operators required for similar throughput

Packaging and Labeling

- Automated patient-specific literature, labels and packages
- Printing and insertion of patient prescription instructions

Digital Virtual Simulation and Emulation

- De-risk designs early by simulating automation buffers, layout, and throughput before build
- Accurately verify performance through virtual models of mechanical and control systems

Logistics and Distribution

- Sorting prescriptions in patient-specific packaging (up to 8 bottles per envelope) with need-by-date prioritization to enable more efficient on-time delivery than first in / first out (FIFO)

Future-proof your automation investment. Our emphasis on modularity, scalability, and open integration helps deliver an adaptive automated pharmacy solution.
